The scoreboard any volunteer can run.

Scorsta puts the score, clocks and cards where everyone at the game can see them. It is run from a phone with the free Arenachamp app, and both always show the same game.

STEP 1

Pick the sport

Rules, clocks, periods and cards are set up for you.

STEP 2

Pair the board

Switch it on and it connects to the phone over Bluetooth.

STEP 3

Share the score

Parents scan a QR code and follow live. Nothing to install.

Any volunteer can run it
Scored from the free Arenachamp app, made for parents and volunteers.

Readable in full sun
5000+ nit LEDs in a weatherproof housing.

No WiFi or cables
Bluetooth to the phone. Scoring works offline.

Power at any venue
Mains supply included, or 18+ hours on a car battery.

Everything on one panel
Score, game clock, shot clock, period and cards.

Your sport, built in
Basketball, water polo and canoe polo today.

The details.

Power at any venue

A mains supply comes in the box. Away from a power point, a standard 80 Ah car battery or a portable power station runs the board for 18+ hours.

Sports

Basketball, water polo and canoe polo, each with its own rules and timers. Cricket, netball, AFL, rugby and volleyball are coming.

Live scores for parents

Every game gets a QR code. Anyone who scans it follows the score live in their browser.

Start with the app

The app is free on iOS and Android, with no account needed. Score with it today and add the board when the club is ready.

Next steps for your club.

1. Download the free Arenachamp app and score a training game.
2. Email sales@arenachamp.com to pre-order or ask a question.
3. Scan the code for sizes, power and more.
